PROFESSIONAL SUMMARY

ERPNext Developer with 9 months of experience in ERPNext implementation, customization, and automation using the Frappe Framework, plus 1 year as a C++ Graduate Apprentice Trainee at DRDO. Expertise in custom DocTypes, Server Scripts, Client Scripts, Print Formats, automated workflows, and REST API integrations. Delivered solutions for 20+ enterprise clients across healthcare, finance, and logistics. Proficient in Python, JavaScript, SQL, and MariaDB. Experienced in RBAC, production deployment, and database optimization.

TECHNICAL SKILLS

Frameworks:	ERPNext, Frappe Framework, Django, Qt Creator
Languages:	Python, JavaScript, C, C++, SQL
Databases:	MariaDB, MySQL, query optimization, indexing, caching
Web Technologies:	HTML, CSS, React.js, REST APIs, JSON, Jinja2
Tools & DevOps:	Git, GitHub, Linux, Bench
ERPNext Skills:	Custom DocTypes, Server/Client Scripts, Print Formats, Workflows, Dashboards, RBAC, API integrations, Data migration
Testing Tools:	Parasoft C/C++ Test, Cppcheck, SonarQube, Squish

WORK EXPERIENCE

ERPNext Developer

FYNAC.COM LLC — Dubai Healthcare City, United Arab Emirates

11/2025 – Present (9 months)

- Delivered end-to-end ERPNext customizations for 20+ enterprise clients across healthcare, finance, and logistics; managed full implementation lifecycle from requirement gathering and system configuration to data migration and go-live support
- Developed custom DocTypes, automated workflows, dashboards, and KPI reports; reduced client manual processing time significantly through business logic automation and conditional workflow routing
- Engineered REST API integrations connecting ERPNext to payment gateways, logistics APIs, and accounting software; built Print Formats using Jinja2 and HTML/CSS per client branding and compliance requirements
- Optimized database performance through query optimization, indexing strategies, and caching; achieved significant reduction in report generation time across large datasets
- Maintained high system uptime SLA across all client deployments; provided tier-2 technical support and production troubleshooting with fast critical issue response

Graduate Apprentice Trainee

Naval Physical and Oceanographic Laboratory (DRDO) — Kochi, India

03/2024 – 03/2025 (1 year)

- Developed interactive HMI (Human Machine Interface) applications using C++ and Qt Creator for real-time naval data visualization and system operations
- Performed comprehensive software testing and quality assurance using Parasoft C/C++ Test, Cppcheck, and SonarQube; identified and resolved critical defects before production release
- Conducted GUI automation testing using Squish; created automated test cases and reduced manual testing effort significantly per release cycle
- Authored technical documentation, design specifications, and maintainability guides ensuring knowledge transfer and code quality standards

Python Developer Intern

Techmaghi Ltd — Ernakulam, Kerala, India

08/2023 – 12/2023 (4 months)

- Developed Python applications and backend REST APIs using Django framework; deployed to production environment
- Debugged and tested software across multiple modules; resolved critical bugs and assisted in database schema design

PROJECTS

React-Based Frappe Page Builder

Personal Project | GitHub: github.com/Silna-P

- Built a custom React application for dynamically building and editing ERP pages within the Frappe Framework; shipped and maintained as an independent production tool
- Implemented drag-and-drop UI builder, form validation, and state management using React.js and JavaScript

HR Employee Reports Dashboard

ERPNext Implementation Project

- Developed a standalone HR dashboard with multi-view attendance and salary reporting consuming live ERPNext API data; implemented RBAC, calendar views, and Excel export; used daily by HR and Finance teams

EDUCATION

Bachelor of Technology — Computer Science and Engineering

Royal College of Engineering and Technology — Thrissur, India

2019 – 2023 | CGPA: 7.75

CERTIFICATIONS

- Python Developer Certification
- Infosys Python Programming Certification
- Qt Core for Beginners Certification
- Artificial Intelligence Certification (Ongoing)
